

ACIDIFY-LF

CONCENTRATED ACID CLEANER

DESCRIPTION

ACIDIFY-LF is a concentrated low foaming circulating and spray acid detergent developed for applications in the food processing, dairy, beverage and general industry. ACIDIFY-LF contains a balanced blend of phosphoric and sulfuric acids along with a degreasing agent developed for removal of soap build-up, neutralization, and de-descaling of stainless surfaces.

SPECIFICATIONS

pH 1% Soln. Minimum 1.2 — 1.5
Form Liquid Concentrate
Foam Low
Effects on Metals Safe on steel and stainless at use dilution.

DIRECTIONS

For Pipeline Circulation: Use (1/2-3) ounces per gallon of water, depending on soil content and buildup. Always follow with a water rinse.

For Spray and Soak: Use (1/2-12) ounces per gallon of water, depending on soil content and buildup. Flush, and then follow with a water rinse.

DANGER! DO NOT MIX WITH CHLORINE OR CHLORINATED CLEANERS. TOXIC FUMES WILL BE RELEASED.

For best results consult your Unicore technical representative.

FIRST AID

DANGER! CONTAINS PHOSPHORIC AND SULFURIC ACIDS.

KEEP OUT OF REACH OF CHILDREN!

INTERNAL: Drink large quantities of water. Obtain medical guidance immediately.

EYES: Flush eyes with water for at least 15 minutes. Consult a physician.

EXTERNAL: Avoid contact with skin or eyes. In case of contact, flush with plenty of water. Remove soiled clothing.

PACKAGING

Bulk, 55 gallon drums and 5 gallon pails.
